Lora,

The amwater site shows an all blue (safe) system map.

I guess DM's msg trumps my news

Lora, hi

I thought I heard of a delay this morning. Toyota facility around Buffalo orginally had 1ppm but i believe was downgraded to non detect. Occurred at night. Mike says its cleared. That the reimpose did not happen.

thx dennis

Lora

John Koerner (cc'd) has been tasked by Dr. Lurie to get some data points around the questions below. Can you work with John and help him make the right connections. We want to get these questions answered by the Federal agencies. We are not going to make a direct ask to the State unless its absolutely necessary.

Thanks

H

Subject: Advice

Putting in an RFI re: re-imposing do not drink order soonest. Is there any harm/good sending to the State EOC or can you put the ask in from the desk? I don't want to ruffle anyone and make your lives more difficult. I am reaching to CDC, ATSDR, EPA, CIP, and REC 3.

Here are Q's

Q1 - Which entity made the determination to reimpose the do not drink order in these counties and in consultation with whom?

Q2 - On what basis was the determination made? Can we get access to relevant data from before and after the elevation?

Q3 - Is there information as to the potential source of the elevation (e.g. ice melt, ground, etc.)?

Q4 – Are other locations anticipated for reimposition of the order?
